Education

National University **Sampaloc, Manila**
Bachelor of Science in Information Technology with Specialization in Mobile and Web Application Expected August 2026

Stella Maris College Cubao, Quezon City
Graduated with Honors | STEM Strand June 2022

Experiences

IEEE IC4E 2025 — International Conference on E-Education, E-Business, E-Management, and E-Learning
Research Author | Published Paper: "WeLink: A Web-based Tutorial Management System for Small Tutorial Center Businesses"
April 2025 – July 2025

- Conducted research and system development for a web-based tutorial management platform for small tutorial center businesses.
- Co-authored a research paper at the 2025 16th International Conference on E-Education, E-Business, E-Management, and E-Learning (IC4E).

National University Manila, Philippines
Developer | Capstone Project: "AquaCultura: A Smart Web and Mobile Platform for Homegrown Hydroponics Farm Management with IoT and Data Analysis"
March 2025 – October 2025

- Developed core backend features using Node.js and Express for real-time IoT sensor data handling.
- Integrated MongoDB for storing and analyzing pH and temperature readings from Arduino-based devices.
- Implemented automated nutrient and water control mechanisms improving farm monitoring efficiency.

National University - Educational Technology Office Manila, Philippines
Intern | EdTech TrainTrack | EdTech-TrainTrack: A Centralized Training Monitoring and Management System for National University-Manila
November 2025 - February 2026

- Contributed to the development of an internal web-based system to support workflow and process automation for the Educational Technology Office.
- Assisted in designing system features and improving functionality based on department requirements.
- Performed testing, debugging, and documentation to ensure system reliability and user readiness.

Fortinet Certified Fundamentals in Cybersecurity - Fortinet Training Institute, June 2025
Microsoft Office Specialist – Excel 2019 Associate - Microsoft, January 2026

Skills & Interests

Technical: JavaScript, Node.js, Express, Flutter, MongoDB, C++, HTML, CSS, Git, Figma, Postman, VS Code
Language: English, Filipino
Laboratory: IoT prototyping using Arduino Uno R4 WiFi, sensor calibration (pH, temperature), system integration testing
Interests: Database design and optimization, server-side programming, casual gaming, tech trends
