

## Carla Mae B. Gidacan

---

551 M.F. Jhocson Street. • Manila, 1008 • gidacancb@students.national-u.edu.ph • +639456811509

### Education

#### National University

**Bachelor of Science in Information Technology with Specialization in Mobile and Web Application**

**Sampaloc, Manila**

Expected August 2026

Thesis: AquaCultura: A Smart Web and Mobile Platform for Homegrown Hydroponics Farm Management with IoT and Descriptive Data Analysis

Relevant Coursework: Programming, Web and Mobile Development, Database Management, Systems Design, Network and Security

#### Stella Maris College

Graduated with Honors | STEM Strand

Cubao, Quezon City

June 2022

### Leadership & Activities

#### IEEE IC4E 2025 — International Conference on E-Education, E-Business, E-Management, and E-Learning

**Research Author | Published Paper: “WeLink: A Web-based Tutorial Management System for Small Tutorial Center Businesses”**

April 2025 – July 2025

- Conducted research and system development for a web-based tutorial management platform for small tutorial center businesses.
- Co-authored a research paper at the 2025 16th International Conference on E-Education, E-Business, E-Management, and E-Learning (IC4E).

#### National University

Manila, Philippines

**Developer | Capstone Project: “AquaCultura: A Smart Web and Mobile Platform for Homegrown Hydroponics Farm Management with IoT and Data Analysis”**

March 2025 – October 2025

- Developed core backend features using Node.js and Express for real-time IoT sensor data handling.
- Integrated MongoDB for storing and analyzing pH and temperature readings from Arduino-based devices.
- Collaborated with a four-member team to design a responsive Flutter interface for mobile and web users.
- Implemented automated nutrient and water control mechanisms improving farm monitoring efficiency.

**Fortinet Certified Fundamentals in Cybersecurity** - Fortinet Training Institute, June 2025

### Skills & Interests

**Technical:** JavaScript, Node.js, Express, Flutter, MongoDB, C++, HTML, CSS, Git, Figma, Postman, VS Code

**Language:** English, Filipino

**Laboratory:** IoT prototyping using Arduino Uno R4 WiFi, sensor calibration (pH, temperature), system integration testing

**Interests:** List activities you enjoy that may spark interview conversation
